*Nebraska law requires any individual who provides child care to four or more children from different families at any one time to become licensed. Following are the definitions for the license types.

License Types:

Family Child Care Home (FCCH) I: Program in the home of the provider; maximum capacity is eight children of mixed ages and two additional school age children during non-school hours.

Family Child Care Home (FCCH) II: Program in the home of the provider or another site; maximum capacity is twelve with two providers.

Child Care Center: Program licensed for at least 13 children.
